MEASURING TIPS

To ensure accurate measurements, use a measuring tape and measure your body directly without clothing.

If you're having trouble locating your waist, a simple technique is to lean to one side and measure where your waist naturally creases.

Curious about fit? We provide garment lengths in the 'details' section. A handy tip is to measure a well-fitting item you already own and compare the measurements.

BUST

Stand with your arms at your sides and measure around the fullest part of your bust.

NATURAL WAIST

Find your natural waist by measuring around the narrowest part of your midsection

HIP

Hold your tape around the place where your hips stick out the most - it'll help you find your perfect fit
