All measurements should be taken directly on the body. If your measurements suggest different sizes, your hip measurement is leading. If your measurement is in between two sizes, order the smallest size for a tighter fit or the bigger size for a looser fit.	Las medidas deben tomarse directamente sobre el cuerpo. Si las distintas medidas que obtienes corresponden a diferentes tallas, rigete por la de la cadera. Si tu medida se encuentra entre dos tallas, pide la pequeña para que te quede más ajustada o la grande si quieres una prenda más holgada.	Alle metingen moeten rechtstreeks op het lichaam worden uitgevoerd. Als je metingen verschillende maten suggereren, volg dan je heupomvang. Zit je maat tussen twee maten in? Kies dan de kleinste maat voor een strakkere pasvorm of de grotere maat voor een lossere pasvorm.	Toutes les mesures doivent être prises directement sur le corps. Si vos mesures indiquent des tailles différentes, la mesure de votre hanche est la plus importante. Si votre mesure se situe entre deux tailles, commandez la taille la plus petite pour un ajustement plus serré ou la taille la plus grande pour un ajustement plus souple.	Tutte le misurazioni devono essere effettuate direttamente sul corpo. Se le misure suggerite sono di dimensioni diverse, fa riferimento la misura dell'anca. Se la misura è compresa tra due misure, ordinare la misura più piccola per una vestibilità più stretta o la misura più grande per una vestibilità comoda.
