HOW TO FIND THE SIZE OF YOUR PANTIES?

FIND YOUR CHEST CIRCUMFERENCE

1. Keep your bra and carry a tape measure.
2. Place the tape straight, parallel to the ground, on the back of your bra, join the bottom of your chest by tightening slightly, then measure.

FIND YOUR WAISTLINE

Re-position the tape measure to measure your waist circumference. Measure on the thinnest spot. As shown in the attached sketch.

MEASURING YOUR HIPS CIRCUMFERENCE

Position the meter at the strongest place on your hips. Refer to the table above and discover your size of panties, shorts or swimwear stockings.

THE DIFFERENT SHAPES OF PANTIES

PANTIES	TANGA	SHORTS	HIPSTER	THONG	HIPHUGGERS
Modern and comfortable, the lace panties cover the entire buttock.	Traded on the hips, the tanga is comfortable as a thong and sexier than a panties.	Shorty high waist or low waist for those who prefer comfort and elegance.	For lovers of the low waist, the hipster is worn at the hips.	Ideal for active women, it leaves you free as air and highlights your glutes.	To flatten the belly, sculpt the waist and refine this small belly under a fitted dress!
